

CATCH SHEET

American Sign Language 1

In Silence you can find True Sound. All you need is a pair of Hands and Eyes that are Willing to Listen.

More and more employers are looking for applicants who can sign! ASL gives you a competitive edge.

ASL LEARN WHY?

Do you think Deaf people miss out on music? Not really. What hearing people miss out is literary arts in sign language for its linguistically creative language play, poetry, and storytelling.

You can talk conveniently in sign language with your mouth full or talk through windows or even underwater! You can also talk lively in loud concerts or whisper in a church or a library.

THIS YEAR LEARN WHAT?

Discuss where you live and with who

Describe yourself and others in ASL

Share personal stories and Deaf folktales

Explain your daily routine and favorite activities
