**Algebra 2 is the foundation
of all of these jobs and much more...**

Problem solving skills!!!

How to read/interpret data!!!

How to read/interpret graphs!!!

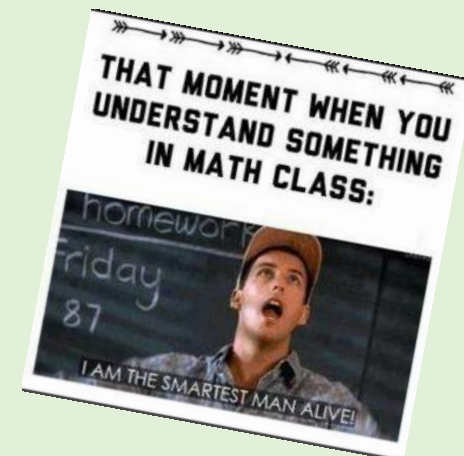

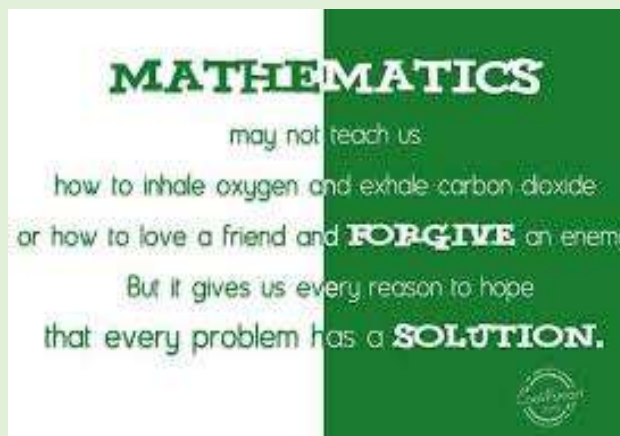

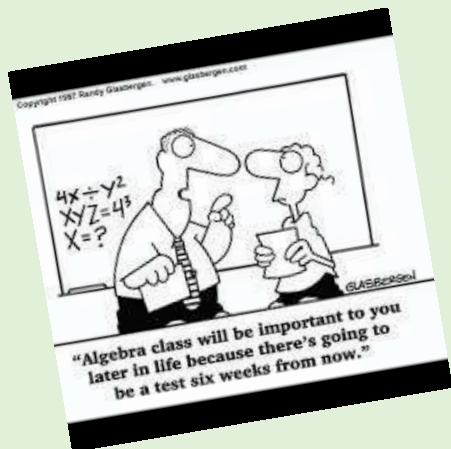

How to calculate probability

How to apply graphing skills!!!

Knowing the various ways every problem has a solution!!!

Algebra 2...Why???

What's in it for me???

Algebra 2 ... *it's the gateway to your future success!!!*

What class will look like:

Collaboration, scavenger hunts, guided notes, class discussions, real-life examples, thinking about your future, and more.

Expectations:

For you . . .

- Keep an organized binder
- Be prepared to learn (pencil etc.)
- Use your agenda
- Turn in stuff on time
- Actively participate
- Use Pride Period effectively
- Be respectful to everyone

For me . . .

- Hold high expectations for all students
- Be prepared to teach
- Make class applicable and efficient
- Be consistent and fair
- Give stuff back on time
- Be respectful to everyone

When it is over:

At the end of the course...

We want **you** to be able **to say**.....
