

Things that make In Manufacturing...

Design and Build your own clock

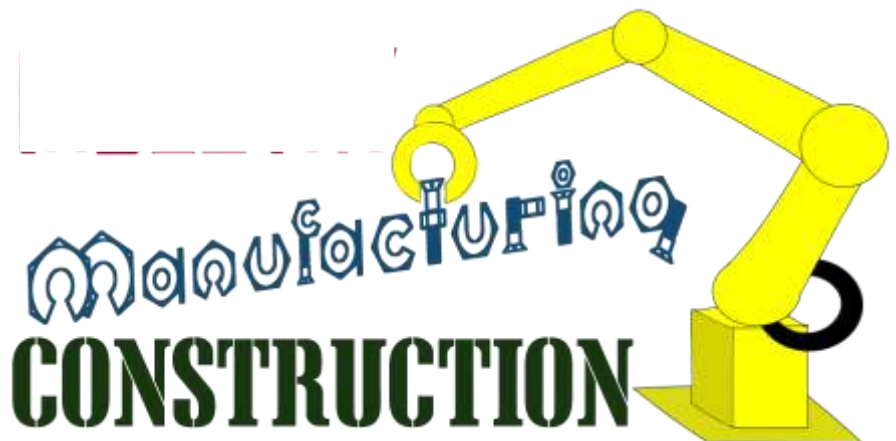

What tool were used to make this?

What tool is this?

We'll discuss these
topics and more this
year in

Working Together

Things You Should Always Do:

- Be prepared to learn (pencil etc.)
- Turn in stuff on time
- Actively participate
- Use Pride Period effectively
- Be respectful to everyone
- **PRACTICE SAFETY PROCEDURES**

Things I Should Always Do

- Make you know all safety procedures
- Be prepared to teach
- Make class interesting
- Be consistent and fair
- Give stuff back on time
- Have materials readily available
- Be respectful to everyone

This year, we will look at different types of manufacturing tools!!!

Including the following

- Table saw
- Band saw
- Drill Press
- Radial Arm Saw
- Sander

AS WE GO, WE WILL COMPARE THE TYPES OF DRAWINGS WE STUDY TO FIND SIMILARITIES AND DIFFERENCES.

Activities You'll Be Doing This Year

Cutting Board

Candle Holder

Treasure Chest

Clock

Oven Hook
