

Welcome to Chemistry!!!

WHAT IS CHEMISTRY?!

Chemistry is a **lab** class – We do many fun, hands-on labs!

Chemistry is a **concept** class – You will learn how chemistry can be applied to your lives!

*Chemistry is an **applied mathematics** class – You will learn how chemistry class can help you in your math class!*

Chemistry is a **science** class – this means that you will **DISCOVER** and make **INQUIRY**!

Chemistry Topics

Unit 1: Up, Up, and Atom

- Nuclear Chemistry
- The Atom
- Periodic Table

Unit 2: Bonds, James Bonds

- Types of Chemical Bonds
- Intermolecular Forces

Unit 3: Holey Moley

- Moles
- Stoichiometry
- Solutions

Unit 4: It's Getting Hot In Here

- Heat
- Enthalpy
- Collision Theory
